

Activities at Finlay Park

We have a huge range of activities for 8 to 88 year olds, from the mundane to the adrenaline rush you need. Finlay Park activities are available to the groups who are booked into Finlay Park and the Village. Depending on date and time they can be available to groups not booked in at Finlay Park in certain circumstances. All activities need to be booked well in advance. When you book your camp at Finlay Park we can help you create a program that suits your group's needs. We will also provide you with all the health and safety information you might need, templates (parent helper sign up, Transport SOP's, participant disclosure and sign up, duty rosters, etc.). Our aim is to make it as easy as possible for you to come and enjoy this amazing place.

For more information on our activities please click this link; our price list, our supervision and risk analysis structure, and our RAM forms on www.finlaypark.co.nz

Our activities are divided into 4 groups (*please note who supervises the activity; FP supervision means we will instruct and supervise the activity, Adult supervision means adults in your group will receive training from FP trainers to run these activities*);
