Activity		Black Slide		Supervision category		Adult supervision required!	
Area	Confidence course			Date reviewed	July 2017		
Hazard (what poses the threat)	Poss. Risk (injury outcomes)	Category (environment, people, equipment)	Risk Rate	Controls in place (What we do to either eliminate, minimise or isolate the hazard or risk)		Responsible (who is responsible for dealing with this hazard during activity)	
Slide surface and tower (equipment failure)	Minor injuries	Equip/ envir	Low	Slide surface and tower are checked monthly and the slide surface is checked before every session to make sure no debris has fallen on the slide.		FP staff	
	Cuts and bruises	People/ envir	Medium	Rules state only one person at a time sitting down or lying down in the Feet first position to minimise any impact on the body. Run ups are strictly forbidden.		Participants and supervising adults	
	Exiting the slide prematurely						
Colliding with other people	concussion	people	High	<b>As clearly stated on the safety sign, only one person at a time. Concussion only occurs when 2 or more people go down the slide together. A supervising adults is in charge of the slide entree area and regulates who can go down and when</b>		Participants and supervising adults	
	Other injuries	people	Medium	<b>As above, adult's supervisor will only let next person go down when the slide has been cleared.</b>		Participants and supervising adults	
Slide height and speed	Neck injuries	people	Medium	The safety sign in place clearly states how to use the slide. The supervising adults are trained by a FP staff person. During the activity FP staff will check in with the supervising adults on a regular basis to make sure they are supervising correctly.		Participants, supervising adults, and FP staff	
Weather	People getting cold	Envir	Medium	It is up to the group discretion to decide whether people are getting to cold to participate due to the close proximity to camp (50 meters)		Visiting group
